DECLARATION OF RECTIFICATION

As the English version of the Public Notice of International tender for one position of Assistant Researcher, in the scientific area of Medical and Health Sciences, Exact and Natural Sciences and Social Sciences, scientific sub-area of science communication, at the Institute of Interdisciplinary Research of the University of Coimbra (IT074-25-15078) was published incorrectly, the following points of the document are corrected as follows:

where it reads:

"IV.2.5. Scientific project for the next 5 (five) years, with a limit of 15,000 (fifteen thousand) characters with spaces (not including images), relating to the lines of research in the scientific sub-area for which the tender is open, to which the candidate proposes to dedicate him/herself at the UC, complying with the following requirements: presentation of the main problems to which he/she intends to devote his/her future research, contextualising them in the current state of the art in the biology of ageing; description, systematised and succinct, of the research strategies that the candidate proposes to adopt in order to develop his/her research and solve or contribute to solving the problems he/she has set out; explanation of the reasons and motivations for his/her choices in the field of the biology of ageing."

it should read:

"IV.2.5. Scientific project for the next 5 (five) years, with a limit of 15,000 (fifteen thousand) characters with spaces (not including images), relating to the lines of research in the scientific sub-area for which the tender is open, to which the candidate proposes to dedicate him/herself at the UC, complying with the following requirements: presentation of the main problems to which he/she intends to devote his/her future research, contextualising them in the current state of the art in the

science communication; description, systematised and succinct, of the research strategies that the candidate proposes to adopt in order to develop his/her research and solve or contribute to solving the problems he/she has set out; explanation of the reasons and motivations for his/her choices in the field of the science communication.”
